Work on New Bridges.

The driving of piles for the false work on the new highway bridge over the Potomac has been commenced by McDonald & McDermott, contractors who have the work in charge. As soon as all of these piles are down it is expected that the caissons will be constructed for the putting in of the piers, which are to be of the same kind of granite as that used in the new Long Bridge. Work is progressing satisfactorily on the new Long Bridge, over which, it is expected, trains will be running early next summer. The huge iron and steel girders have all been put in place on the big draw and the framework is now being assembled. Nearly all of the iron and steel needed for the structure is piled on the Potomac flats ready for use. Including the rails, no less than 82,000 tons of metal are to be used in the construction of the bridge which, when completed, is to cost more than a million dollars. The roadbed for the present railway tracks through the Potomac Park, is now rapidly approaching completion. A force of two or three hundred Hungarian and Italian laborers are employed on the work. The new roadbed is being made wide enough for three or four tracks.

Southern Railway Offices.

As was stated in yesterday's Gazette, the House committee on railroads reported adversely to the Folkes bill defining the headquarters of common carriers, which bill was intended to require the Southern Railway to return its offices to Richmond. Mr. Folkes did not appear. Col. A. B. Andrews, W. W. Finney and A. P. Thom, representing the Southern Railway, and Alexander Hamilton, first vice president of the Atlantic Coast line, were at the committee hearing. Mr. Finney, arguing against the amendment, pointed out the advantages of having the Southern's administrative offices in Washington. To show that the company was not disposed to discriminate against Virginia, but rather to favor this State, Mr. Finney quoted interesting figures. The company employs 5,651 men in Virginia, and pays out in this State \$250,000 a month on salary account. The salary payment in the State equaled 19 per cent. of the total amount of salaries paid by the company, whereas only about 13 per cent. of the company's mileage is in Virginia.

Police Court.

[Mayor G. L. Simpson Presiding.] The following cases were disposed of this morning: Frank Carr, arrested by Officer Lyles for drunken and disorderly conduct and begging on the street, was fined \$5. Henry Froelich, arrested by Officer Roberts charged with disposing of a coat belonging to Mr. C. M. Griffin had his case continued. William Robinson, arrested by Officers Arrington and Nicholson charged with larceny, was held. Dennis Dudley, colored, arrested by Officers Knight and Beach for drunken and disorderly conduct, was fined \$5. Amelia Ford, colored, arrested at the time by the same officers on a similar charge, was dismissed. Washington Jackson, colored, arrested by Officers Henderson and Lyles charged with assaulting Bettie Jackson colored, was dismissed.

Swallowed Arsenic Tablets.

Emmet, the two-year-old son of Police Commissioner Lawler, yesterday found a bottle of arsenic tablets at his parents' residence and swallowed several. The condition of the child attracted attention and when it was discovered that he had swallowed the tablet Dr. Purvis was summoned who relieved the little boy after considerable trouble. The father of the child had been using the tablets for a blood disorder.

Contested Case Postponed.

The contested election case of Richard W. Johnston against Crandall Mackey, for the office of Commonwealth's attorney for Alexandria County, was called for a hearing in the County Court to-day before Judge Lipscomb, of Prince William County, who had been designated by Gov. Montague to preside, Judge Love having been summoned as a witness in the case. Mr. Johnston was represented by Attorneys Francis L. Smith, Edmund Burke and C. C. Carlin, and Mr. Mackey by Attorneys John M. Johnson, R. Walton Moore and Frank Lyons. Soon after the court met the attorneys for Mr. Johnston asked for a continuance, which was granted, and the matter will come up at the next term of the court.

Pistol Shots.

Shortly before twelve o'clock last night while Officers Knight and Beach were patrolling the northeastern portion of the city they heard pistol shots and cries of murder. The officers hastened in the direction from which the cries emanated, but were unable to ascertain who discharged the pistol. They found, however, that the cries of murder had been uttered by an obese colored woman who had been ejected from a house by a colored individual named Dennis Dudley. The woman was half-dressed and snow was falling at the time. The man and woman were drunk and both were taken in custody. The Mayor this morning fined Dudley \$5 and dismissed the woman.

Foot Mashed.

Mr. Arthur Howard, one of the employees of the Southern Railway Company in this city, had his right foot seriously mashed while at work at the depot yesterday. He was engaged in handling some heavy pieces of timber at the time when the end of one of them fell on his foot. He was removed to his home where he was attended by Dr. O'Brien.

By inadvertently omitting a line in the Gazette's report yesterday in the proceedings in the case of C. B. Cockrell vs. the Washington Southern Railway in the Fairfax County Court on Tuesday the counsel for the defendant company were unable to appear as represented by Mr. Cockrell, Messrs. Norton & Booths were counsel for the plaintiff.

A regular meeting of the Columbia Fire Company was held last night. There was an average attendance of members and some business of interest to the company was transacted.

The Co-operative Societies Association will meet tomorrow morning at 10 o'clock at Lee Camp Hall.

Mr. Robert Travers will have sheephead, roundhead and trout in market tomorrow.

Great Examples.

The proprietor of a small but growing establishment has told why he reserves a part of his capital for newspaper advertising, increasing his space as he can. "The great merchants of every large city depend for business mainly on newspaper publicity," he says. "They would not buy so much costly space for mere variety or without a distinct knowledge that it is profitable. Since they have grown by the aid of publicity and maintain their eminence by the same means, why should not I grow by that aid? But for my newspaper advertising I should never have achieved what I have."—[Phila. Record.]

Last Night's Show.

"Gulliver's Travels," by the Royal Lilliputians, at the Opera House last night, was presented in one of the best styles to a crowded house. The company, to use a popular saying, is "all right," and there was not a dull moment during the entire performance. Of course the midgets were the center of attraction, and were well appreciated in their acting. James E. Rosen, the comedian, as Blubberly, was excellent, and his work was of the highest order. All the Lilliputians deserve praise for their specialties. The scenery ever brought here, and some of the pieces used last night were magnificent. Last, but not least, is the chorus—a score of pretty girls, well-dressed in their parts, with good voices, and superbly costumed—and the show couldn't do without them, either. The music was catchy and the songs up-to-date in every way. The show, as a whole, was a excellent and well deserved the patronage bestowed upon it. Manager Harper is to be congratulated upon the booking of such company as the "Lilliputians" and "Dr. Jekyll and Mr. Hyde," and more attractions of the same order are sincerely wished for by the theatre-going people.

Testimonial Concert.

At the Opera House in this city on December 10, a grand concert will be given by the best local talent in the city, assisted by first-class talent from Washington. The concert will be under the supervision of Manager Harper.

ATTEMPTED MURDER AND SUICIDE.

In a fit of jealous rage over the continued rejection of his attentions Thomas McCabe forced his way into the kitchen of a private house in New Haven, Conn., yesterday and severely slashed Miss Hattie Gilmore across the face with a razor. McCabe then committed suicide by drinking carbolic acid. McCabe attempted to cut Miss Gilmore's throat, but she broke away after he had slashed her face and ran downstairs, falling into the arms of Mrs. Ziegler, the owner of the house. McCabe then went into a closet in the sitting-room, drank the acid, and nearly severed the left wrist with a razor. He died before a physician arrived. Miss Gilmore, who was taken to the New Haven Hospital, is very weak from loss of blood, but is in no immediate danger of death. She is probably disgraced for life, however. She says the trouble was due to an old love affair. Miss Gilmore's home is in Guilford and she had been visiting in New Haven since Thanksgiving Day. She is twenty-two years old. McCabe was thirty years old and a machinist by trade. According to friends, the young woman about a year ago received McCabe's attentions, but discoveries which she made concerning him compelled her to request him to cease his calls.

BLOW TO MANN LAW.—The Mann liquor law received a severe blow yesterday. What was conceived to be one of its strongest points was knocked out in a decision by Judge Allan Hancel, of the Corporation Court, of Norfolk. He declined to revoke the license granted to R. D. McPetridge to sell liquor in a saloon closed by the court under the Mann law. The former proprietor, Capps, had been convicted of selling liquor to minors. It was held by the commonwealth that the sale of liquor would be forever prohibited in a bar where the law has once been violated. Judge Hancel ruled against this view.

ARSENIC FUR NACES IN BLAST.—The furnaces of the United States Arsenic Mines Company, located at Terrys Fork, Floyd county, went into blast yesterday. The concern is owned by Pittsburgh capitalists, including C. R. Brinton, president, and H. C. Frick. The company is capitalized at \$1,000,000. The output from the start will be 70 tons of arsenic per day, and machinery will shortly be put in which will double this amount. A railroad, 17 miles in length and running from Shawsville, a point on the Norfolk and Western, to the mines, will be built by the arsenic company. The mines at 3,210 feet above sea level.

Improvement came at once and four bottles entirely cured her. Guaranteed by E. S. Leadbeater & Sons, druggists. Price 50c and \$1.00 Trial bottles free.
